

CONFERENCE

PSYCHOLOGY – a Contribution to EU Policy Making *Known to few, good for many*

Wednesday, November 9, 2011

European Parliament Brussels
Paul-Henri Spaak building P5B001 60, rue Wiertz / Wiertzstraat 60
B-1047 Bruxelles/Brussel
Belgium

Hosted by MEP Leonidas DONSKIS, MEP Nadja HIRSCH and MEP Vilja SAVISAAR-TOOMAST

Organised by the European Federation of Psychologists Associations EFPA
with the support of the Alliance of Liberals and Democrats for Europe

Background information

The aim of the conference is to provide Members of the European Parliament, officials from the European Commission, and representatives of other European organizations with up-to-date information on psychology and what it can offer to European society.

The event should give attendants a view of what present-day psychology can contribute in areas such as health, education, work, community, and traffic. It should make clear how psychologists with expertise in these areas can effectively work together in preventing mental illness and social conflict, and in promoting life-long learning, social inclusion, and economic growth and innovation. We hope that the conference will help to establish a dialogue that will allow psychology to contribute to European policy-making in the future.

The conference will start with an opening by MEP Prof. Leonidas Donskis and a short presentation on behalf of the European Commission. Next, there will be a presentation with an overview of psychology's possible contributions to European policy-making, and four short presentations on selected topics that are of special relevance for European policy-making. Psychological experts from all over Europe will be present to give supplementary statements and answer questions. The conference will be concluded with closing remarks by MEP Vilja Savisaar-Toomast.

Participants will also receive an information package, documenting a wide range of psychological projects and interventions.

Program

Wednesday, November 9, 2011 : 13.00 – 17.15
